First published in 1986, this book has become regarded as a classic and is being reissued by Haynes to meet popular demand. Presented in the format of a Haynes Manual, Vintage Motorcyclists' Workshop is aimed at the amateur, who is encouraged to attempt almost every aspect of restoration work himself, within the confines of the home workshop. It is packed with detailed practical information and illustration compiled by a highly respected motorcycle restorer.

Korean: A Comprehensive Grammar is a reference to Korean grammar, and presents a thorough overview of the language, concentrating on the real patterns of use in modern Korean. The book moves from the alphabet and pronunciation through morphology and word classes to a detailed analysis of sentence structures and semantic features such as aspect, tense, speech styles and negation. Updated and revised, this new edition includes lively descriptions of Korean grammar, taking into account the latest research in Korean linguistics. More lower-frequency grammar patterns have been added, and extra examples have been included throughout the text. The unrivalled depth and range of this updated edition of Korean: A Comprehensive Grammar makes it an essential reference source on the Korean language.

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY . The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

"Oxford Guide to Metaphors in CBT, Building Cognitive Bridges is a remarkable, memorable, and continually fascinating book, one that will be on my repeated reference list for years to come." Robert Leahy, Clinical Professor of Psychology in Psychiatry at Well-Cornell University Medical College --

Indian is a magic name in motorcycling. Its mention brings to mind machines with flamboyant bold striping, lithe of appearance and, seemingly even at rest, poised for flight. There were over two dozen makes of motorcycle on the market during the heyday of motorcycling in the United States. Yet in the minds of many enthusiasts, none of these quite approached the verve, style, artistic functionality of design or handling abilities of the Indian. The Iron Redskin is the story of the most loved of American motorcycles. It is a vast work that has taken many thousands of hours to compile, yet it is one of the most readable and interesting motorcycle histories ever to be published.

Granville Bradshaw was an engineer and inventor of extraordinary vision. His now legendary, often revolutionary designs for early aeroplanes and engines quickly brought him fame and success. This detailed biography provides a fascinating and absorbing account of his life.
