We have also been active researchers in computer networking during this time. (In fact, Jim and Keith first met each other as master's students in a computer networking course taught by Mischa Schwartz in 1979 at Columbia University.) We think all this gives us a good perspective on Teaching networking, and an appreciation for high-quality ...

Computer Networking: a Top Down Approach

This can be done in simulated scenarios or in a "real" network environment such as the Internet. The Java applets in the textbook Web site take the first approach. In these Wireshark labs, we'll take the latter approach. You'll be running various network applications in different scenarios using a computer on your desk, at home, or in a lab.
