Issued first in 1999 by the International Organization for Standardization (ISO) and the International Electro-technical Commission (IEC), the ISO 17025 2005 standard is the single most crucial standard certification for calibration and testing laboratories around the globe.

What Is ISO 17025 : 2005 & What Are Its Management ...

Testing and calibration laboratories. ISO/IEC 17025 enables laboratories to demonstrate that they operate competently and generate valid results, thereby promoting confidence in their work both nationally and around the world. It also helps facilitate cooperation between laboratories and other bodies by generating wider acceptance of results between countries.

ISO - ISO/IEC 17025 - Testing and calibration laboratories

Whenever environmental conditions control is necessary, the measuring equipment used for that purpose SHALL be suitable for use, be calibrated and available in accordance with ISO/IEC 17025 clause 6.4.6.

GUIDE FOR ISO/IEC 17025 APPLICATION

ISO/IEC 17025 General requirements for the competence of testing and calibration laboratories is the main ISO standard used by testing and calibration laboratories. In most countries, ISO/IEC 17025 is the standard for which most labs must hold accreditation in order to be deemed technically competent. In many cases, suppliers and regulatory authorities will not accept test or calibration results from a lab that is not accredited. Originally known as ISO/IEC Guide 25, ISO/IEC 17025 was initially
