Philosophy of the Social Sciences (POS), peer-reviewed and published quarterly, has served as the international, interdisciplinary forum for current research, theory, and debate on the philosophical foundations of the social sciences for 40 years. POS focuses on the central issues of the social sciences, including general methodology, the application of philosophy (especially individualism versus holism), the nature of rationality, and the history of theories and concepts.

of the logic, methods, and foundations of social sciences such as psychology, economics, and political science.

Philosophers of social science are concerned with the differences and similarities between the social and the natural sciences, causal relationships between social phenomena, the possible existence of social laws, and the ontological significance of structure and agency.

### [Philosophy of social science - Wikipedia](#)

Philosophy of Social Science provides a tightly argued yet accessible introduction to the philosophical foundations of the human sciences, including economics, anthropology, sociology, political science, psychology, history, and the disciplines emerging at the intersections of these subjects with biology. Philosophy is unavoidable for social scientists because the choices they make in answering questions in

This textbook by Martin Hollis offers an exceptionally clear and concise introduction to the philosophy of social science. It examines questions which give rise to fundamental philosophical issues. Are social structures better conceived of as systems of laws and forces, or as webs of meanings and practices?

understanding of it. Thus philosophy of social science is both descriptive and prescriptive. As such, it concerns a number of interrelated questions.

### Social Science, Philosophy of | Internet Encyclopedia of ...

Philosophy of social science, branch of philosophy that examines the concepts, methods, and logic of the social sciences. The philosophy of social science is consequently a metatheoretical endeavour—a theory about theories of social life. To achieve their end, philosophers of social science investigate both the practice of the social sciences and the nature of the entities that the social sciences study—namely, human beings themselves.
