Sepher Rezial Hemelach is the longawaited first English translation of this famous magical text a translation from the ancient Hebrew in the rare and complete 1701 Amsterdam edition. According to Hebrew legend, the Sepher Rezial was presented to Adam in the Garden of Eden, given by the hand of God, and delivered by the angel Rezial. The myth thus suggests that this is the first book ever written, and of direct divine provenance. A diverse compendium of ancient Hebrew magical lore, this book was quite possibly the original source for later, traditional literature on angelic hierarchy, astrology, Qabalah, and Gematria. Moses Gaster mentions this in his introduction to The Sword of Moses (1896) suggesting that the Sepher Rezial could be a primary source for many magic and qabalistic books of the Middle Ages. Sepher Rezial Hemelach is a compilation of five books: "The Book of the Vestment," "The Book of the Great Rezial," "The Holy Names," "The Book of the Mysteries," and "The Book of the Signs of the Zodiac." It includes extensive explanatory text on the holy names of God, the divisions of Heaven and Hell, the names and hierarchy of the angels and spirits, as well as symbolic interpretations of both the Book of Genesis and Sepher Yetzirah. It also includes material on astronomy, astrology, gematria, and various magical talismans, most notably those used for protection during childbirth. In his introduction, Steve Savedow details the history, bibliographical citations, and lineage of this famous work. He lists the old and rare manuscripts still in existence, and provides a bibliography of other reference works for study of the Western esoteric tradition.

Sepher Raziel (also called Liber Salomonis) is not the same as the Hebrew Sepher Raziel ha-Melakh. It is a full grimoire in the Solomonic tradition from a 1564 century English manuscript, derived from Latin sources. As such it is one of the earliest grimoires produced in this series. It begins with directions for making the parchment, pen and ink of Art, required to write the names. It contains seven separate Treatises: 1 - Liber Clavis which is concerned with astrology and its correct use in magic, something long forgotten by modern astrologers, with the precise interactions between planets, Signs and Houses; 2 - The Ala outlines in four sections the magical virtues of stones, herbs and beasts, and words; 3 - The Tractatus Thymiamatus explains why incense is essential to magical operations, and the effect of various incenses on the spirits, with a list of the key perfumes and suffumigations. An Appendix gives the modern and botanical names; 4 - The Treatise of Times gives details of the correct hours of the day and night for each operation, with associated angels and the proper names of the Sun, Moon and planets to be used in each season. This is something left out of almost all other grimoires; 5 - The Treatise on Purity explains the exact preparations, and the reasons for ritual purity; 6 - Samaim is a treatise on the seven Heavens, with the names of their angels; 7 - The Book of Virtues and Miracles is a treatise on the Semiforas, the names of God, and how they are to be used in invocation to produce miraculous results.

Abulafia declares that he always studied from the books of Raziel the angel, but he could never understand their meaning, until something happened and everything became clear to him at once. Following this enlightenment, he receives the teachings of the angel and feels the strong urge to disclose them, so that others may partake of the divine secrecies

The Liber Salomonis, referred to in its own composition as the Sepher Raziel, claims to be a book given directly to King Solomon by a mysterious prince and sorcerer from the East. Actually written in the Renaissance or perhaps as early as the Medieval period, it synthesizes Kabbalistic and Hermetic lore together and is divided into seven treatises. The subject matter ranges from the high occult of invocation and the names of angels and of the Judeochristian god, to herbal medicine and the creation of incense for the calling of spirits, to the categorization of twenty four beasts and stones to coincide with the hours of the day. With the entire core of the work ruled over by seven angels and seven celestial bodies, the philosophy behind its somewhat apocryphal historical content is nonetheless of extreme interest and is here presented in modernized English for the modern audience. 82 pages.
