For years accounting ethics has been viewed as an unimportant adjunct of academic and professional accounting. However, the economic scandals of the early twenty-first century have dramatically nullified this characterisation, with the ruination of investors in Enron, WorldCom, Waste Management, Aldelphia, Tyco and scores of other business concerns raising questions about the adequacy and relevance of

academic research into accounting ethics, as well as the ethical nature of professional parties. Presenting important papers that reassess these theories, research studies and professional practices in the field of accounting ethics, this collection scrutinizes the body of knowledge that did not protect the investing public, and examines the current crisis in the creditability of financial reports.

More user-friendly, interactive, and powerful than ever before, this step-by-step guide to professional research is integrated with a NEW online suite of research tools, tutorials, demos, research cases, and links to accounting and business research sites and standards-setting organizations. Users can test their knowledge and research strategies with NEW, active-learning mid-chapter Practice Exercises and a NEW section of end-of-chapter Exercises in each chapter.

array of unsolved questions continues to plague a profession under fire in the aftermath of one financial debacle after another and grabbling with the advent of international accounting standards. This volume of *Advances in Accounting* not surprisingly includes articles reflective of recent focus on corporate governance, earnings management and the influence of the CEO, the accuracy of earnings forecasts and the value relevance or voluntary and mandated disclosures. This volume also looks at challenges facing the academic community with respect to technology and addresses pedagogical advances holding promise. AIA continues its commitment to the global arena by publishing research with an international perspective in the International Section inaugurated in Volume 20. As never before the accounting profession is seeking ways to reinvent itself and recapture relevance and credibility. AIA
