An abundance of rich and memorable female roles is one of the most striking features of turn-of-the-century European drama. Gail Finney traces the source of this phenomenon to large-scale upheavals in prevailing contemporary attitudes toward women. She cites two major developments in particular: the culmination in the years 1880-1920 of the first feminist movement; and Freud's formulation of his theories of sexuality, which

emphasize differences between the sexes. Taking into account these strong, sometimes conflicting intellectual currents, *Women in Modern Drama* explores the dynamics of gender identity and family relationships in major plays by European male dramatists, including Ibsen, Strindberg, Shaw, Wilde, Schnitzler, Synge, Hofmannsthal, Wedekind, and Hauptmann.

Reproducible worksheets and practice pages offer spelling strategies and handwriting help for 2nd graders.
